

DAY 3

'Don't Let Another Summer Go By'

Challenge

Ordinary & Happy
O & H

Take some sunset photos.

Simple: If the day is busy, step out into the backyard or the front of the house at sunset. Take some photos on your phone. Use this as an opportunity to acknowledge the beauty of where you live.

More Time: Walk or drive to a viewpoint, where you can see the sunset at its most beautiful. A view of your town, for example, or a view of a bridge. Experiment with different types of photos. Most phones these days include an array of photography options, many of which we never use. Share your photos in a group chat with friends or family.
