November Decluttering for the Week of 15th-21st

Ordinary & Happy O&H

SUN	15	**Set a timer for 20 minutes to organize the remaining things in the kitchen.** *For 15 minutes, focus on the areas that bother you the most in the kitchen (these could be the messiest zones or the most visible zones). For the final 5 minutes of the timer, organize and wipe down the countertops to make the kitchen feel tidier.*	☐
MON	16	**Toss any single socks without a pair.** *Gather all the socks and match the pairs. Toss any single ones, and while at it, you can also toss socks with holes, worn heels, or any stretched-out elastic.*	☐
TUE	17	**Choose one shelf in the closet to declutter and tidy.** *Pick the most crammed or the most visible shelf. Sort the items into 1) keep, 2) donate, 3) toss, and 4) relocate. If it's a big shelf, consider using shelf dividers or bins to keep everything neatly organized.*	☐
WED	18	**Choose one drawer in the closet to declutter and organize.** *Pick the messiest drawer or the one that's hardest to open or close. Empty the drawer and wipe it out. Sort everything from the drawer into 1) keep, 2) donate, 3) toss, and 4) relocate. Use drawer dividers or small boxes to organize things if needed.*	☐
THU	19	**Organize all the hangers in the closet.** *Start by removing the empty hangers from the closet. Consider whether any of the hangers need replacing (e.g., broken, mismatched). Matching hangers can make a big difference in the closet. You can use slim velvet hangers for saving space and wood hangers for heavy coats. Finally, group the clothes by category (e.g., dresses, jackets, pants).*	☐
FRI	20	**Donate shoes you no longer need.** *Take a look at all the shoes you own and consider which ones you can donate. Start with ones you haven't worn in over a year, shoes that hurt your feet (but that might work for someone else), and shoes you just don't plan to wear anymore. You can toss ones that are falling apart or are too worn to donate.*	☐
SAT	21	**Sort through your accessories and organize them.** *Consider all the accessories you have (e.g., scarves, belts, hats, bags, sunglasses, costume jewelry). Sort and organize by category. Toss broken accessories that can't be repaired and donate ones you don't need anymore.*	☐
